

GrantThrive - Built for Local Government

Transform Your Council's Grant Management

GrantThrive is a purpose-built grant management platform that combines powerful administration tools with genuine community engagement features. Designed specifically for Australian and New Zealand councils, we empower local governments to streamline processes, engage citizens, and make a bigger impact.

The GrantThrive Difference

- **Community-Centric:** We provide community engagement tools, including an advisory community voting system and interactive grant mapping, giving councils richer community insight while retaining full decision-making authority.
- **Cost-Effective:** GrantThrive is priced to be competitive with legacy grant software. On average, councils see a modelled ROI of 312% and a payback period of ~4 months.
- **Feature-Rich:** We offer significantly more features than legacy desktop-based systems, including modern automation tools and advanced analytics.
- **Simple Pricing:** No hidden setup or training fees. Just one transparent annual subscription.

Key Features

- **Community Voting System:** An advisory tool to let citizens indicate their priorities for grant funding.
- **Interactive Grant Mapping:** Visualize the impact of grants in your area.
- **AI-Powered Grant Wizard:** Create and manage grants with intelligent automation.
- **Real-time Analytics:** Track your performance and engagement with live dashboards.

- **Seamless Integrations:** Connect with 15+ council systems.
- **Security & Compliance:** Data hosted in Australia (AWS Sydney). Role-based access control, full audit logs, and WCAG 2.1 AA accessibility. Designed to support compliance with the Australian Privacy Principles (APPs) and the NZ Privacy Act 2020. SOC 2 certification in progress.
